DATE

8<sup>th</sup> February 2023

AGE recently appointed a new technical team with Stefan Clinjk Clijnk as team manager effective January 25 February 1, 2023.

“Following AGE’s rebranding announcement to Experts, AGE is moving forward in creating more tangible value for its members, partners, and customers,” said Marco Moreno, CEO and Executive Chairman of AGE.

Stefan has more than 25 years of experience in the automotive glass industry, and today is the board member of 123RUIT, in the Netherlands.

123RUIT.nl, co-founded by Stefan, is an AGE member with 53 glass specialists and growing through their relationships with various insurance and leasing companies. Before this appointment, Stefan had his own workstation and thus understands how demanding our technicians’ jobs can be.

“I am excited to lead AGE’s new technical team. From the board perspective, having Experts in our name brings great responsibility and we want to make sure we honor our name,” mentioned Stefan.

“We have 22 members who are all key references locally for the quality of service. We can learn a lot from each other, thereby increasing the value of the AGE membership even more.”

To kick off, Stefan has selected a core team which will be responsible for many projects, developments, and programs to be announced soon.

**Further information:**

AGE is a network of automotive glass replacement and repair companies. Together the network contains 2 006 fitment centres and 2 086 mobile units in 21 countries. Members are innovators in their local markets and work collaboratively to expertly service customers beyond their individual borders through key international supplier partnerships. AGE members have national networks within their countries and partner with local insurance, leasing and fleet management companies to provide sound glass repair and replacement services.
