Automotive Glass Experts (AGE) Joins ARGIC as a Member of Their Technical Committee

Automotive Glass Experts (AGE) proudly announces its membership in A.R.G.I.C. (Automotive Replacement Glass Identification Center), a distinguished consortium founded in 1993 by industry leaders.

A.R.G.I.C., a non-profit organization, was established with the primary aim of creating a universal identification code, known as Eurocode®, for all glasses and accessories installed on vehicles in the European market. This initiative facilitates standardized practices in the Automotive Replacement Glass Market and upholds the quality and guarantee of aftermarket high-quality services.

As a member of A.R.G.I.C.'s Technical Committee, AGE will actively contribute to the development and maintenance of the Eurocode® structure. This collaboration enables AGE to stay at the forefront of industry standards and ensures the provision of accurate and up-to-date information to its members.

The Eurocode®, with a maximum length of 15 digits, provides a self-explanatory and standardized system. AGE's participation in this codification process is an added value for decoding glass information for the aftermarket and facilitating precise fits for a wide range of vehicles. Furthermore, A.R.G.I.C.'s extensive database boasts over

93,560 references, encompassing a comprehensive range of glass and accessories for vehicles currently in circulation within the market.

“AGE’s presence in A.R.G.I.C. aligns with our commitment to excellence and technological advancement in the automotive glass sector. By actively participating in the Technical Committee, we ensure that our members benefit from the most accurate and up-to-date information, further enhancing our database for aftermarket and fitting services,” stated Giorgio Pompole, Board Member at Automotive Glass Experts.

Automotive Glass Experts looks forward to a fruitful collaboration with A.R.G.I.C., contributing to the continual improvement of industry standards and providing unparalleled services to its members across the world.

About AGE:

Automotive Glass Experts (AGE) is a distinguished consortium of specialists in automotive glass replacement and repair, with over 15 years of experience. Operating in 23 countries across Europe, North America, Africa, and Asia, AGE is widely recognized for its commitment to excellence and innovation in the automotive glass industry.

About A.R.G.I.C. (Automotive Replacement Glass Identification Center):

A.R.G.I.C. is a non-profit organization founded in 1993. The organization aims to create and maintain a universal identification code, Eurocode®, for all glasses and accessories fitted on vehicles in the European market. A.R.G.I.C. facilitates collaboration among industry members to uphold professional standards and ensure the accuracy of information in the Automotive Replacement Glass Market.
