Automotive Glass Experts (AGE) Welcomes Dansk Bilglas as Its Newest Member in Denmark

Automotive Glass Experts (AGE) is pleased to announce the addition of Dansk Bilglas as its newest esteemed member in Denmark. This strategic collaboration signifies a significant expansion for AGE in Denmark, underlining our unwavering commitment to delivering cutting-edge automotive glass services while enhancing our presence in Europe.

Following the recent acquisition by Cary Group of Ryds Bilglas and Dansk Bilglas in the Danish market, Dansk Bilglas will now be the prominent brand, resulting in the formation of a unified entity known as Dansk Bilglas. This consolidation not only represents a strategic alliance but also positions Dansk Bilglas as a strong key player in the Danish market, further solidifying the consortium's global presence.

Dansk Bilglas inherits a legacy of automotive and construction glass expertise, grounded in a rich history and commitment to innovation. The integration of Dansk Bilglas into the AGE family not only enhances their capabilities but also underscores their commitment to delivering premium automotive glass services with an unwavering focus on customer satisfaction and international coverage.

As a part of the AGE family, Dansk Bilglas gains access to a wealth of industry best

practices, shared knowledge among esteemed members, and the advantages of AGE's international supplier agreements. This collaborative approach extends to technical team projects and support, facilitating participation in international tenders.

"We extend a warm welcome to Dansk Bilglas, an integral part of the AGE family in Denmark. This collaboration aligns seamlessly with our commitment to excellence, innovation, and a shared dedication to service quality," expressed Marco Moreno, AGE CEO, and Chairman.

Dansk Bilglas is committed not only to maintaining an exceptional standard of service but also continuing to embrace the principles of resource conservation, recycling, and waste sorting. The team actively fosters environmental awareness among its employees.
